

Who is actually on the other side

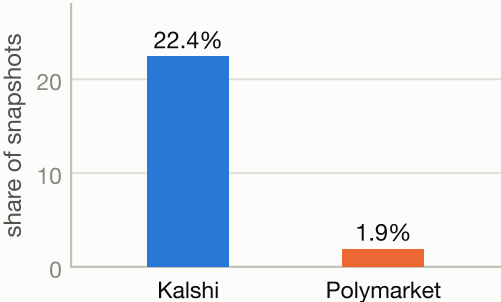

85,453 depth snapshots over 564 games. Two-sided size at this scale is professional market-making, not organic peer supply.

The book has two layers

the standing size sits BEHIND the best price:
8x the touch, and twice as balanced

How often is a retail-sized order the best quote?

Kalshi wears a retail surface over a professional layer; Polymarket's touch is itself professional-sized
